

Cylinder head screws

for DCE tube clamps, with hexagon socket, steel

MATERIAL

Zinc-plated steel, class 8.8.

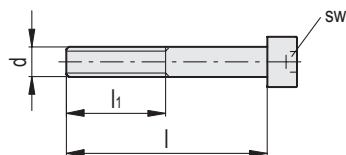

FEATURES AND APPLICATIONS

Cylindrical head screws (ISO 4762) for fastening the half clamps of the DIN 3015-1 standard series.
Typically used with the DCE-WA flat washer.

ACCESSORIES

For the assembly kit DCK-S.

- DCE-S: standard series tube clamps.
- DCE-PL: welded lower plates.
- DCE-WA: flat washers.
- DCE-GU: mounting guides.
- DCE-NTG: nuts for mounting guides.
