

Leveling Feet

**Stainless Steel, 3-A and DGUV certified,
Hygienic Design**

SPECIFICATION

Type

- Type **A**: Without mounting holes

Spindle, adjustable sleeve

- Stainless steel AISI 304
- Turned

Foot plate

Stainless steel sheet metal

AISI 316L

Seals, blue, FDA compliant

- Sealing ring
HNBR, hardness 70 ±5 Shore A
- Wiper
TPU, hardness 95 ±5 Shore A
- Joint sealing ring
HNBR, hardness 85 ±5 Shore A

Elastomer pad, blue, FDA compliant

- Silicone, hardness 85 ±5 Shore A
- Vulcanised

INFORMATION

Leveling feet GN 19 comply with the 3-A sanitary standard 88-01 and the DGUV testing principles, making them suitable for use in hygienic areas.

The elastomer pad seals the space below the foot plate against dirt. This is achieved by the weight of the machine on the plate. The sealing ring above the adjustment sleeve enables fastening without dead space. Due to the wiper and the joint sealing ring, the moving components are sealed against the environment.

The high quality finish prevents adherence of dirt and facilitates cleaning.

The values listed in the table for static load capacity refer to a purely vertical load in relation to the leveling foot. Under normal operating conditions bending loads or angular loads are not uncommon and result in a reduction of load capacity, which must be taken into consideration.

- Operating instruction GN 19 / GN 20

ACCESSORY

- Cover Sleeves GN 20.1 (see page) Hygienic Design

TECHNICAL INFORMATION

- Plastic Characteristics (see page A2)
- Stainless Steel Characteristics (see page A26)
