

Ratchet Spanners

Housing Steel / Shaft Stainless Steel

SPECIFICATION

Housing

Steel
Powder coated
Black matte, textured finish

Shaft

Stainless steel AISI 303
Matte shot-blasted

Wearing parts

Steel, hardened

Domed gear knobs I.222-N (see page 537)

Plastic, phenolic resin (PF)
Black, shiny finish

INFORMATION

Ratchet spanners GN 316 are robust, easy to handle and have an appropriate and attractive design.
Ratchet spanners are normally used wherever the same ratchet spanner is always required or where it makes sense to leave the ratchet spanner at the place of use or attach it to equipment or machinery as a "stationary" tool. Various different versions of ratchet insert are available and these can be exchanged as required by loosening the retaining screw and removing the cover plate.
The ratchet action is deactivated when the reversing lever is in the locked position, allowing torque to be applied in both directions.

ACCESSORY

- GN 184 Countersunk Washers (for Axial Fixing) (see page 971)

ON REQUEST

- Other inserts

TECHNICAL INFORMATION

- Keyway P9 DIN 6885-1 (see page A16)
- Squares DIN 79 (see page A16)
- ISO-Fundamental Tolerances (see page A21)
- Stainless Steel Characteristics (see page A26)
