ELESA+GANTER THE PARENT COMPANIES

Elesa S.p.A.
Headquarters in Monza (Italy)

With over 80 years of experience in engineering plastics moulding of standard components for mechanical and industrial machinery, Elesa combines a strong focus on R&D with efficient customer service through innovative, ergonomic solutions. Tens of millions of parts are produced annually using advanced automated technologies and tested in-house. A fully automated Logistics Center manages over 65,000 product codes, meeting global demands and supplying all direct Elesa subsidiaries in France, the UK, Switzerland, Sweden, the USA, Canada, and Mexico, in addition to the Elesa+Ganter ones.

Otto Ganter GmbH & Co. KG
Headquarters in Furtwangen (Germany)

Founded in 1894 as a mechanical workshop in Furtwangen in the Black Forest, Ganter introduced the first standard parts in 1912. Five years before the establishment of the Deutsche Industrie Norm (DIN). Today, the company is in the fourth generation of family management and market leader in development, manufacture and sale of standard parts with a portfolio of over 80,000 parts, available from stock. To ensure that this remains true in future, Ganter relies on continuous development of the product portfolio, state-of-the-art production and logistics, as well as a global network of strong partners.

PRODUCT GROUPS OVERVIEW

 1 | Operating elements

 2 | Clamping knobs

 3 | Clamping levers

 4 | U-Handles

 5 | Fixed, revolving and fold-away handles

 6 | Control elements

 7 | Rotary controls

 8 | Indexing elements

 9 | Machine elements

 10 | Joints, couplings, gears

 11 | Levelling elements

 12 | Hinges and accessories

 13 | Latches and edge protection profiles

 14 | Toggle, power and hook clamps

 15 | Accessories for hydraulic systems

 16 | Clamping and connecting elements

 17 | Castors and wheels

 18 | Magnets

 19 | Conveyor components

 20 | Linear motion components

 21 | Vibration mounts and elastomer springs

 22 | Aluminum profiles

 23 | Vacuum components

HIGH PERFORMING ITEMS FOR SPECIFIC NEEDS AND APPLICATIONS

Standard components with innovative features, ergonomic design in compliance with strict directives to meet specific needs and applications.

AE-VO

Self-Extinguishing
Technopolymer

ATEX

Compliant with ATEX
European Directive

CLEAN

White for Dirt-Proof
Surfaces

ESD

Conductive Technopolymer

HYGIENIC DESIGN

Standard Parts
for Maximum Hygiene

INOX – STAINLESS STEEL

Stainless Steel
Corrosion Resistance

PROFILE COMPATIBLE

Standard Machine Elements
for Profile Systems

SAN – ANTIMICROBIAL

Sanitisation against
Bacteria and Fungi

SOFT-TOUCH

Comfortable and
Safe Grip

SUPER-TECHNOPOLYMER

Technopolymer with
High Mechanical and
Thermal Performances

VISUALLY DETECTABLE

Detectable Technopolymer
RAL 5005 "Signal Blue"

METAL DETECTABLE

Technopolymer RAL 5001
"Green-Blue" with
Detectable Additives

ELECOLORS®
When Colour is a Value

CUSTOMISED SOLUTIONS ENGINEERED FOR YOUR REQUIREMENTS

Elesa's and Ganter's modern and automated production facilities, together with their know-how in design and manufacture are at the disposal of all customers for the development of new technical solutions and customised production. Both technical departments are able to provide a cost-effective solution by modifying an existing standard part or by going all the way back to the drawing board.

128 + International Design Awards

Elesa+Ganter is committed to offer unique and recognizable products worldwide. Continuous research in ergonomics, materials, and functionality ensures high-quality design, confirmed by **128 international design awards**.

...and many others!

300 + Patents & Registered Designs

Proof of constant innovation and protection of original ideas in product development.

50 + years of Technology & Innovation

Since more than 50 years Elesa+Ganter combines excellence of specialised engineers and close cooperation with R&D teams in Italy and Germany, to develop innovative technical solutions.

100.000 +

Product Codes

Widest product range of standard machine elements, driven by the market. Over 100.000 product codes distributed in more than 70 industrialised countries with local presence and the highest technical consultancy.

Select the product directly from the configurator and get your **free 2D/3D CAD** drawings in the required format

Register to **MyE+G** to manage purchases, view drawings, track orders and quotes, and save product favorites

Shop online anytime – 24/7 access to the entire product range (only in countries with active online shop service)

Check out **videos** to deepen applications, technical features and the usage of Elesa+Ganter products

ELESA+GANTER DESIGNED FOR ENGINEERING

Elesa+Ganter combines two areas of strength: Elesa's deep experience in high-quality plastic components and Ganter's proven know-how in metal parts.

Designing and manufacturing technical solutions for the mechanical industry represent the achievement and the commitment of Elesa and Ganter. A guarantee for leading-edge benefits for the customers.

Thanks to the global distribution network and strong local partners, Elesa+Ganter products are available worldwide. Customers can rely on a partnership that stands for technical knowledge, practical innovation, and the trusted quality of two established brands – all in one place.

DESIGNED
FOR ENGINEERING

The power of combined expertise forms the basis for solutions that meet the highest engineering demands. True to the claim DESIGNED FOR ENGINEERING.

ELESA+GANTER THE DNA OF OUR RANGE

Technical Excellence

Consolidated know-how in the design and manufacturing of standard components in engineering plastics and metal is at the core of Elesa+Ganter's identity. The products are the result of decades of expertise and engineering precision, ensuring innovation, functionality and durability.

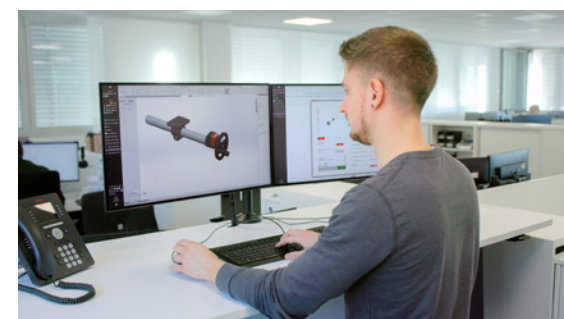

Advanced Manufacturing

Production processes are fully automated and supported by state-of-the-art machinery. High-quality raw materials and strict in-house controls allow to maintain consistent performance and long-term reliability through continuous laboratory testing.

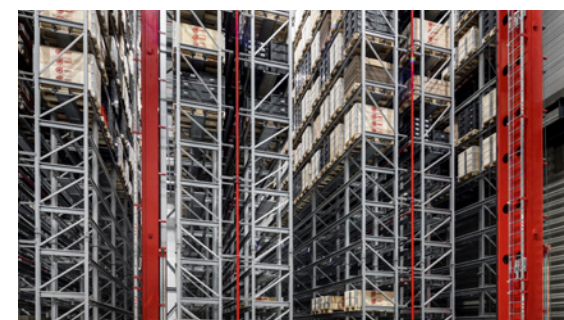

Full Process Expertise

From initial design to final inspection, every phase of the production line is managed with in-depth technical expertise. The integrated approach ensures precise execution and traceability, resulting in products that meet the highest industry standards.

Smart Logistics Network

Elesa+Ganter operate modern, automated warehouses that ensure full product availability. Thanks to frequent shipments and a widespread global network, fast and reliable distribution to subsidiaries, distributors and customers is guaranteed worldwide.

ELESA+GANTER RANGE UPDATED AND EXTENDED CONTINUOUSLY
